Confidential - Hill's Science Diet Sensitive Stomach & Skin Dry Food Update

Dear Valued Customer,

At Hill's Pet Nutrition, we're dedicated to providing the best for pets and their parents.

We're excited to announce some packaging updates to our Science Diet Sensitive Stomach & Skin dry and wet range. This involves changes to the packaging design and additionally some improvements to selected formulas.

These changes are part of our continued commitment to providing pets with high quality, science-led nutrition.

Hill's Science Diet Sensitive Stomach & Skin dry and wet products will be flowing through with the following change from **May onwards**:

Packaging Changes

There will be no changes to SKU codes or barcodes. For the selected Sensitive Stomach & Skin foods with formula updates, although we do not anticipate pets will have any issues transitioning to the updated formula, since many pets on this diet can have a sensitive GI tract it is recommended to gradually transition from the current formula to the new formula over 7-10 days.

Please contact your Hill's Account Manager for further information.

On behalf of Hill's Pet Nutrition I would like to thank you for the valuable support that you continue to provide Hill's brands.

If you require any further information or assistance regarding the information in this letter, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to be 'CA', is positioned below the word 'Sincerely,'.
